

Commitment to Quality:

At BeansForSharing Quality matters! we exist for those Coffee drinkers that are looking for more than the "HOT & Black" experience laced with plenty of creamer and sugar. Look at our labels on the back of every bag is the "Coffee Snob" Story. our Coffee is sourced in cooperation with a small family roaster in the USA. Together we are fully committed to supporting coffee farmers who are 100% devoted to sustainable agriculture. we do this by giving them a sustainable price for the world-class coffee they nurture and harvest. Also, by working with independent importers like San Cristobal and Jungle Tech who bring the best sustainable, direct trade, shade grown, hand picked, ripe coffee cherries to market, we are able to support small-scale coffee cooperatives. You, as the coffee consumer, can trust that your cup of coffee is improving the lives of farmers and protecting our natural resources. It is this relationship that is responsible for the fact that our locally roasted coffee beans are among the best coffee beans you will find anywhere in the world. It is our core belief that quality and integrity can, and should, go hand in hand. Every coffee bean we sell and every bean roasted is proof. By supporting BeansForSharing and picking your favorite Charitable Trust before you check out at your basket, you too are supporting the farmers and their land along with a domestic non profit.
